

	A	B	C
1	File Name	Title	Summary
2	CCA09_007	Scientific findings	Simplifies Congress' findings on climate change from 7 paragraphs to one and forces Administrator to make Endangerment finding
3	CCA09_010	Feedlot inclusion	Includes any agricultural source, including concentrated animal feeding operations that have emitted 25,000 tons of carbon in 2008 or any subsequent year as a covered entity. Include methane emissions from livestock
4	CCA09_012	Allowance quantity trigger	Forces the quantity of allowances auctioned to double if average allowance costs increase faster than inflation, as determined by the Administrator
5	CCA09_021	Seek UN agreement	Sense of Congress that the US should seek a climate change agreement in the UN
6	AEB_069	2014 baseline	Changes emission baseline from 2005 levels to 2014 levels
7	CCA09_006	2014 emission baseline	Sets emission baseline at 2014 (not 2005) - reduction goals starts at 2020 (not 2012)
8	YUCCA_027	Yucca CCS	Makes Yucca Mountain an interim CCS storage facility
9	PRESI_009	Presidio CCS	Makes The Presidio a CCS storage facility
10	MPB2_432	CA jobs offramp - 1K	Suspends the Act should 1,000 jobs in California be lost due to implementation of this Act
11	MPB2_433	CA jobs offramp - 2K	Suspends the Act should 2,000 jobs in California be lost due to implementation of this Act
12	MPB2_434	CA jobs offramp - 5K	Suspends the Act should 5,000 jobs in California be lost due to implementation of this Act
13	MPB2_435	CA jobs offramp - 10K	Suspends the Act should 10,000 jobs in California be lost due to implementation of this Act
14	MPB2_436	CA jobs offramp - 50K	Suspends the Act should 50,000 jobs in California be lost due to implementation of this Act
15	MPB2_437	CA jobs offramp - 100K	Suspends the Act should 100,000 jobs in California be lost due to implementation of this Act
16	MBP2_438	CA jobs offramp - 500K	Suspends the Act should 500,000 jobs in California be lost due to implementation of this Act
17	MBP2_439	CA jobs offramp - 1M	Suspends the Act should 1,000,000 jobs in California be lost due to implementation of this Act
18	MPB2_480	CO jobs offramp - 1K	Suspends the Act should 1,000 jobs in Colorado be lost due to implementation of this Act

	A	B	C

162	USCAP_005	The Dow- DuPont Exception	
163	MPB2_541	State Benefits Public Trust Fund	Establishes a State Benefits Public Trust Fund wherein all alternative compliance payments and penalties shall be deposited and distributed by states (under certain conditions) as grants to develop alternative energy and energy efficiency projects

	A	B	C
164	MPB2_542	Alternative Compliance Payment Amendment	Changes the Alternative Compliance Payment from \$50/MWh to \$15/MWh. This changes the utility bill surcharge for RES non-compliance from 5 cents to 1.5 cents/kilowatt hour.
165	MPB2_573	Class action suits restriction	Prevents class action suits from being brought except by US citizens residing in the US who suffered harm in the US
166	MPB2_574	Harm definition	Defines "harm" for citizen suits as actual harm suffered individually and not widely shared by other persons that are a result from actions by the Administrator
167	REAUTH_001	Congressional reauth in 4 years	Congress must reauthorize every 4 years
168	REAUTH_002	Two year reauthorization	Sunsets the Act every 2 year period unless Congress reauthorizes the Act every two years
169	UTIL_002	Utility allowances	Free allowances to the utility sector of 40%. Distributed to LDC - small percentage to merchant coal generators. Allowances provided for the remainder of the program.
170	INDSALL_003	Inslee-Doyle	Free allowances to the industrial sector (Inslee-Doyle). Allowances provided for the remainder of the program.
171	CCSALL_006	CCS allowances	Bonus allowances for CCS deployment programs with allowances given to first companies that install CCS.
172	UTILLDC_007	Allowance/allocation conglomerate	Free allowances to the utility sector of 40%. Distributed to LDC - small percentage to merchant coal generators. Free allowances to the industrial sector (Inslee-Doyle). Bonus allowances for CCS deployment programs with allowances given to first companies that install CCS. Allowances provided for the remainder of the program.
173	EMREDUC_008	Timelines and targets	Emission reduction target of 6% by 2020, 44% by 2030, 80% by 2050
174	OFFSET_010	Offsets increase	Increase offsets to 3 billion tons
175	OFFSET_011	Discount ratio	Remove 5:4 discount rate applied to offsets
176	OFFSET_012	Eligible offsets	Include list of project types that will be deemed per se eligible and a second list of project types that EPA is directed to consider making eligible.
177	CAROVE_013	Carryover credits	Include any unused tons to be carried over to next year.
178	CCA09_001	Early action - CCX	Expand the credit for early action offsets beyond those in CCAR and RGGI to activities such as those in the CCX.

	A	B	C
179	CCA09_0017	Early action	Allow credit for reductions taken in 2009 and after for project which the infrastructure was in place before that date.
180	CCA09_0018	Destruction offsets	Include destruction projects as possible offset projects.
181	CCA09_002	UN offsets	Eliminate the requirement for an agreement to be in place with the host nation supplying international offset projects for offsets issued by the UNFCCC international body.
182	CCA09_003	NSR	Require the Administrator to report to Congress on the effect of new source performance standards for uncapped facilities on the overall climate program
183	CCA09_004	Forest offsets	Make afforestation, reforestation, avoided degradation, and improved forest management eligible to generate offsets
184	CCA09_005	Unlimited offsets	Eliminate limit on individual firm's use of offsets for compliance
185	AEB_065	Subnational offsets	Allow sub-national activities within offset program
186	AEB_066	Int'l offset split	Remove 50-50 restriction on split between domestic and international
187	AEB_067	Offsets omnibus	Increase offsets to 3 billion tons. Remove 5:4 offset discount rate. Include list of project types that will be deemed per se eligible and a second list of project types that EPA is directed to consider making eligible. Include any unused tons to be carried over to next year. Expand the credit for early action offsets beyond those in CCAR and RGGI to activities such as those in the CCX. Allow credit for reductions taken in 2009 and after for project which the infrastructure was in place before that date. Include destruction projects as possible offset projects. Eliminate the requirement for an agreement with the host nation supplying international offset projects for offsets issued by the UNFCCC international body. Require the Administrator to report to Congress on the effect of new source performance standards for uncapped facilities on the overall climate program. Make afforestation, reforestation, avoided degradation, and improved forest management eligible to generate offsets. Eliminate limit on individual firm's use of offsets for compliance. Allow sub-national activities within
188	CCA09_008	Current coal construction	Ensures coal plants currently under construction are able to be completed.
189	CCA09_009	CCS availability	Adjust 2015 and 2020 standards by tying effective date to the availability of commercial CCS.

	A	B	C
190	CCA09_020	Performance standards omnibus	Ensures coal plants currently under construction are able to be completed. Adjust 2015 and 2020 standards by tying effective date to the availability of commercial CCS.
191	MBP2_438	Interest free borrowing	Extend compliance period from 2 years to 3 years and allow for interest free borrowing for 2 years
192	MBP2_553	Strategic Allowance Reserve prices	Lower the reserve price for the auction by removing the multiplier used to determine the price in order to ensure that mechanism is more truly cost containment device
193	MPB2_576	Industrial allowances	Provide allowances under the industrial sector provision for free to energy intensive industrial emitters
194	NPB_009	Cost containment	Provide full 100% of costs to affected industry
195	NPB_035	Energy intensive industry allowances	Allow high energy intensive industries to be eligible for the program.
196	NBP_012	SAR phasedown	Ensure no phase down of Strategic Allowance Reserve without Congressional determination that leakage threat has been mitigated
197	NBP_013	Industrial sector omnibus	Provide allowances under the industrial sector provision for free to energy intensive industrial emitters. Alter Individual Showing language to accommodate Corning concern regarding presumption of relief and limited time for Administrator to respond. Continue work with interested stakeholders to ensure that comparison within sectors accounts for various fuel types that may be used in a given industry. Provide full 100% of costs to affected industry. Allow high energy intensive industries to be eligible for the program. Ensure no phase down without Congressional determination that leakage threat has been mitigated.
198	CITILAW_001	Citizen lawsuits	Eliminate citizen suit provision in sec. 336
199	GHGREG_009	GHG registry	Modify language on GHG registry requirement to recognize outcome of ongoing EPA rulemaking.
200		Peak demand	Delete peak demand reduction goal requirement.
201		Contract exemption	Exempt contracts that create offsets from the exchange trading requirement.
202		CAA provisions	Include sec. 115 (addressing int'l air pollution) of the Clean Air Act in sections under which future regulation will not occur.

	A	B	C
203		Other issues omnibus	Continue to work with concerned stakeholders in chemical industry to resolve compensatory allowance language to ensure natural gas feedstock issue is resolved. Modify language on GHG registry requirement to recongnize outcome of ongoing EPA rulemaking. Delete peak demand reduction goal requirement. Exempt contracts that create offsets from the exchange trading requirement. Include sec. 115 (addressing int'l air pollution) of the Clean Air Act in sections under which future regulation will not occur.
204	LNG_002	LNG Siting	Accelerates siting of LNG terminals
205	HYD_003	No Wild & Scenic	Ends restriction on incremental hydropower construction on wild and scenic waterways
206	LOBBY_003	Lobbying Ban	Prevents lobbying by owners and operators of covered entities from lobbying over future auction and allocation issues
207	NOCOST_004	No Cost Recovery	Prevents cost recovery mechanisms from being part of the draft bill
208	BLACK_004	Black Liquor	
209	ECONDIS_005	Require Economic Dispatch	
210	SHPAY_007	Shareholder Must Pay	
211	ENVDIS_008	Require Environmental Dispatch	
212	GRTLN_009	Can't Get Both Grants & Loans	Prevents firm from receive both gov't grants and loans on energy R&D
213	TRANS_009a	Transmission Superhighway	Accelerates development of high-tension transmission from wind- and solar-rich regions to metropolitan areas
214	TRANS_010	Transmission Cost Recovery	Provides 100% cost recovery on transmission construction meant to meet RES requirements
215	FEDSIT_011	Federal Lands Siting	Expedites transmission siting on federal property
216	INTER_011	Interconnection Requirement	
217	PURPA_012	PURPA Must Take	
218	NOPERM_012	No Permit Trading
