HOPS - PESTICIDES - 2010

This sheet lists some pesticides used on hops. The health symptoms listed may be caused by things other than pesticides. If you feel sick after exposure to pesticides, call a poison control center or doctor for treatment advice. If a person is not breathing, call 911 or an ambulance, give artificial respiration.

WSDA
Washington State Department of Agriculture

Pesticide (ex. Brand Name) **Highly Toxic**	Product Use Changes **Read the Label** (Reentry intervals may vary by product) DO NOT ENTER TREATED AREAS FOR:	Early Symptoms of Acute Pesticide Poisoning

Sulfur (Micro Sulf)	**24 hours**	NOSE, EYE, OR THROAT IRRITATION — SKIN IRRITATION — BREATHING PROBLEMS

If you are exposed to a pesticide spray or drift:

- Leave the area
- Tell your employer
- Immediately rinse skin with plenty of water for 15-20 minutes
- If you get pesticides in your eyes, hold eyes open and rinse slowly and gently with water for 15-20 minutes. If you wear contacts, rinse for 5 minutes, remove contacts and continue rinsing eyes.
- Change into clean clothes
- Always wash work clothes separately from other clothes

If you feel sick while working with pesticides:

- Leave the area
- Tell your employer you feel sick, start first aid if needed
- Go to a doctor or clinic
- Have someone go with you
- Tell the doctor the pesticide name. Your employer must provide this information
